3 x 5.5mm Rectangular micto ED ® Optopipe™ **Optical Light Pipe**

Dialight 515-1001

Features

- High transmissivity polycarbonate material
- UL94V-0 compliance
- ESD protection (circuit isolation from front panel)
- · Wide viewing angle
- Compatible with Dialight's 515-1000 Three Array Optopipe Light Pipe
- Sleek rectangular design
- · Secures to PCB by press-fit

Dialight Optopipe Light Pipe Description

LED Data

For absolute maximum ratings and other electrical and optical data on the recommended LEDs, refer to LED data sheets.

Operating/Storage Temperature

-30°C to +100°C

This Optopipe[™] is reliably held in place by 2 press-fit pins located on either side of the light pipe element. This Optopipe™ functions as a through-the-case indicator with a textured finish on the light-emitting surface that increases its viewing angle. The recommended light sources are Dialight's 597 Series PLCC-2 or PLCC-4 Type SMT LEDs. The light pipe material is water clear transmissive polycarbonate rated UL94-V0, and has a 35% oxygen index.

Dialight can provide custom Optopipe[™] solutions for your applications.
