

Hot Stick Kit

1-18

Description

Adapts AMPACT tools to standard commercial hot stick equipment. The kit handles AMPACT taps and stirrups from No. 8 to 556.5-27/7 ACSR. (With additional components, it can be used on conductors to 1192.5-45/7 ACSR.) For proper application procedures, request Customer Manual 409-2197.

Selection Information

Part Number 69610-1		The kit consists of the following items, which also can be ordered separately:
Item	Part Number	Description
A. Geared Breech Cap Assembly	306347-1	Replaces standard breech cap assembly and enables power unit to be tightened against wedge by simply turning stick.
B. 90° Adapter	69833-1	Attaches tool holders to universal hot stick, and wedge holder to "C" holder. Two adapters are included.
C. Small Tool Holder	306349-2	Holds small AMPACT Tool No. 69437 with universal hot stick.
D. Large Tool Holder	306349-1	Holds large AMPACT Tool No. 69611 with universal hot stick.
E. "C" Holder	306350-2	Used to hold the "C" member with shotgun stick, and to hook over the through and tap conductors.
F. Wedge Holder	306348-1	Used to hold wedge with universal hot stick.
G. Piggyback Clamp	69816	Used to hold tap conductor in position with through conductor.
