

# Wire to Board Connectors

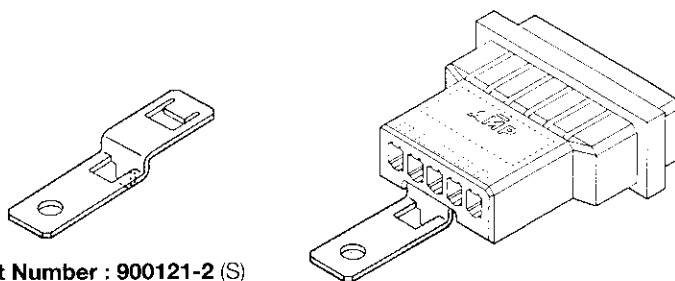

## Dynamic Series Connectors/D-3000 Series

### Connector Mounting Hardware

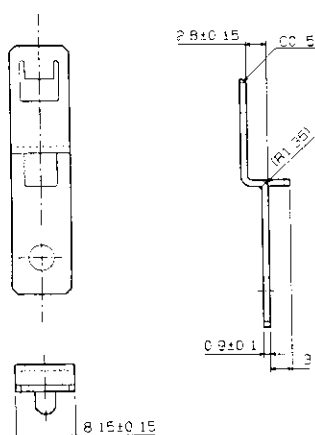

#### ■ L Fittings

Used to secure free-hanging type tab housings onto panels. Two styles, large and small, are available, the former for large-size housings and the latter for small housings. Applicable housings are specified in the table of housings.

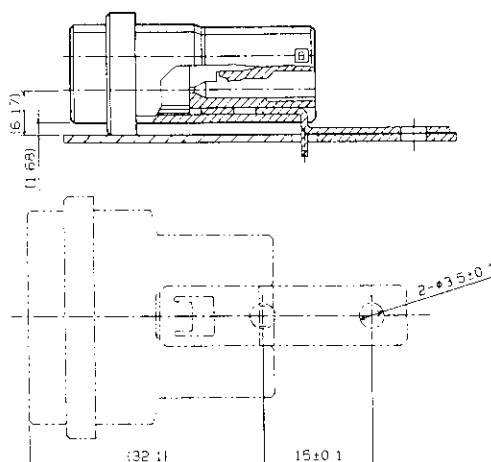

Part Number : 900121-2 (S)

#### ■ External Dimensions

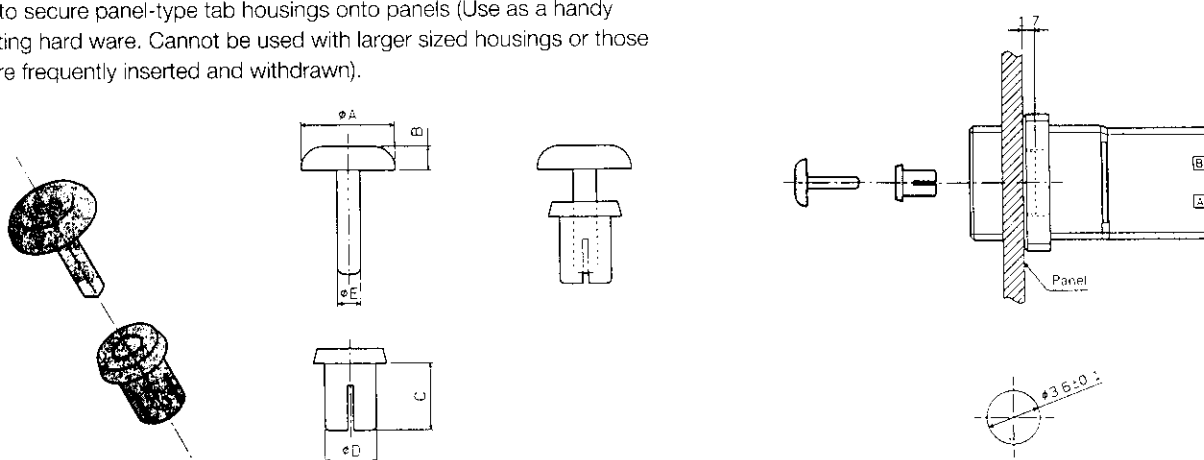

P/N : 900121-2 (S)

The location where housing is attached varies by series and size. Check with sample.

#### ■ Push Rivets

Used to secure panel-type tab housings onto panels (Use as a handy mounting hardware. Cannot be used with larger sized housings or those that are frequently inserted and withdrawn).

Recommended panel hole dimension

| Part Number | Panel Thickness | Dimensions |     |     |     |      | Insertion Force | Retention Force |
|-------------|-----------------|------------|-----|-----|-----|------|-----------------|-----------------|
|             |                 | A          | B   | C   | D   | E    |                 |                 |
| 900128-1    | 0.3-1.3         | 6.4        | 1.6 | 4.5 | 3.5 | 1.95 | 19.6N~29.4N     | 127.4N Min.*    |
| 900128-2    | 1.3-2.3         | 6.4        | 1.6 | 5.5 | 3.5 | 1.95 | 19.6N~29.4N     | 127.4N Min.*    |

\*When 2push rivets are used.
