

Features

- · 3"×2" compact size
- Medical safety approved (2 x MOPP) accroding to ANSI/AAMI ES60601-1 and IEC/EN60601-1
- · Suitable for BF application with appropriate system consideration
- · Cooling by free air convection
- EMI class B for class ${\rm I\hspace{-0.1em}I}$ configuration
- No load power consumption<0.1W
- · Extremely low leakage current
- · Protections: Short circuit / Overload / Over voltage
- Lifetime > 105K hours
- · 3 years warranty

Description

RPS-30 is a 30W highly reliable green PCB type medical power supply with a high power density on the 3" by 2" footprint. It accepts 80~264VAC input and offers various output voltages between 3.3V and 48V. The working efficiency is up to 92% and the extremely low no load power consumption is down below 0.1W. RPS-30 is able to be used for Class II (no FG) system design. The extremely low leakage current is less than 80 μ A. In addition, it conforms to international medical regulations (2*MOPP) and EMC EN55011, perfectly fitting all kinds of BF rated "patient contact" medical system equipment.

Applications

- Oral irrigator
- Hemodialysis machine
- Medical computer monitors
- · Sleep apnea devices

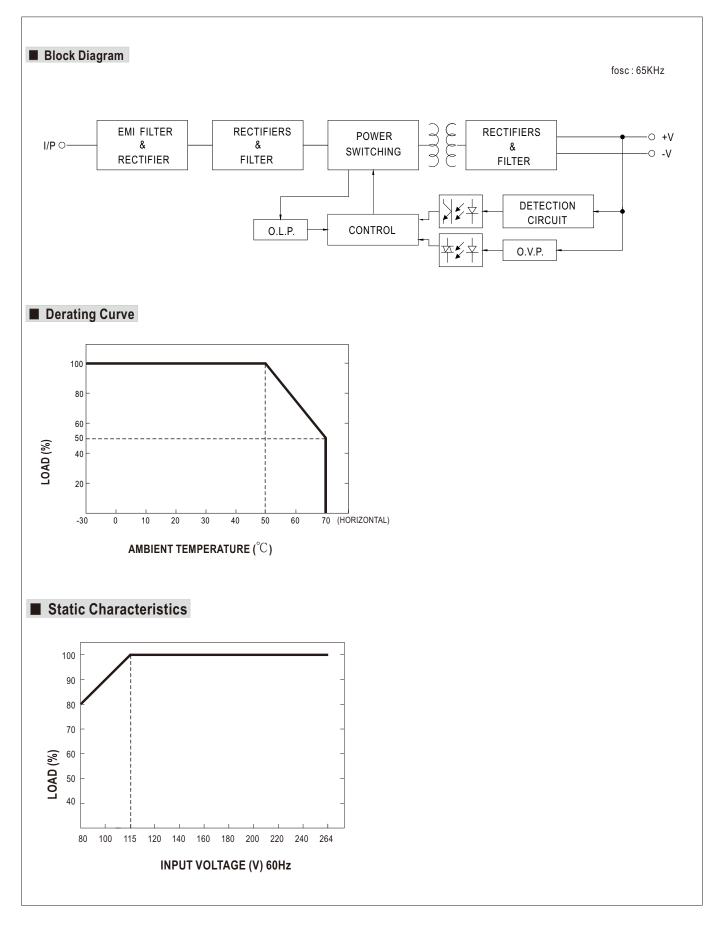

SPECIFICATION
