Part Number : TPG100007 - Softlog ICP2-DS Production Quality ICSP Secure Programmer

The ICP2-DS Production Quality ICSP Secure Programmer is an in-circuit programmer that operates with a PC or as a standalone unit, and programs 8-bit PIC® MCUs and serial EEPROMs. The secure programming feature dramatically reduces the risk of unauthorized reconstruction of hex files, and also limits how many times the hex file can be programmed. It features fast programming, 250 mA Vdd drive current, programmable Vdd (2.0 to 5.5V) and Vpp (2.0 to 13.5V), programmable delay between Vdd and Vpp (0.1 to 240ms), programmable clock/data speed (500KHz to 2.5MHz), 1MByte flash memory, Windows® DLL functions and command-line interface for high volume automatic programming.
