

## Tripolar protection for ISDN interfaces

### Features

- Bidirectional triple crowbar protection
- Peak pulse current:  
 $I_{PP} = 30\text{ A}$  , 10/1000  $\mu\text{s}$
- Breakdown voltage:
  - TPI80N: 80 V
  - TPI120N: 120 V
- Available in SO-8 package
- Low dynamic breakover voltage:
  - TPI8011N: 120 V
  - TPI12011N: 170 V

### Benefits

- Low capacitance from lines to ground, allowing high speed transmission without signal attenuation
- Good capacitance balance between lines to ensure longitudinal balance
- Fixed breakdown voltage in both common and differential modes
- The same surge current capability in both common and differential modes
- A particular attention has been given to the internal wire bonding. The “4-point” configuration ensures a reliable protection, eliminating overvoltages introduced by the parasitic inductances of the wiring ( $Ld/dt$ ), especially for very fast transient overvoltages

### Complies with following standards

- CCITT K17-K20
  - 10/700  $\mu\text{s}$ , 1.5 kV
  - 5/310  $\mu\text{s}$ , 38 A
- VDE 0433
  - 10/700  $\mu\text{s}$ , 2 kV
  - 5/310  $\mu\text{s}$ , 50 A
- VDE 0878
  - 1.2/50  $\mu\text{s}$ , 1.5 kV
  - 1/20  $\mu\text{s}$ , 40 A
- IEC 61000-4-2 level 4
  - 0.5/700  $\mu\text{s}$ , 1.5 kV
  - 0.2/310  $\mu\text{s}$ , 38 A

### Description

Dedicated devices for **ISDN** interface and high speed data telecom line protection. Equivalent to a triple Trisil™ with low capacitance.

This component uses an internal structure resulting in symmetrical characteristics with a good balanced behaviour. Its topology ensures the same breakdown voltage level for positive and negative surges in differential and common mode.

# 4 Package information

- Epoxy meets UL94, V0

In order to meet environmental requirements, ST offers these devices in ECOPACK® packages. These packages have a lead-free second level interconnect. The category of second level interconnect is marked on the package and on the inner box label, in compliance with JEDEC Standard JESD97. The maximum ratings related to soldering conditions are also marked on the inner box label. ECOPACK is an ST trademark. ECOPACK specifications are available at: [www.st.com](http://www.st.com).
