Description

Use Tripp Lite's P005-006-14LA in server applications that require a higher rated, heavier gauge cable, and in which space is in high demand. The left-angle C14 connector on this power cord is perfect for saving space in tight areas, such as in the back of your rack enclosure cabinet. When plugged in, it seats flush against the back of a device (e.g. PDU, UPS, etc.), providing space for your rack door to close, or additional room to organize a crowded area. C13 to Left-Angle C14 connectors, 3 x 14 AWG conductors, 15A rating, 100-250V, SJT jacket. Tripp Lite Lifetime Limited Warranty.
