

Tpli™ 200 Series Gap Filler

Innovative **Technology** for a **Connected** World

EXCEPTIONALLY SOFT, HIGHLY COMPRESSIBLE GAP FILLER

Tpli™ 200 is a premium gap filler. A unique blend of boron nitride and silicone produce the highest performing interface pad.

TpliTM 200's exceptional combination of high thermal conductivity and compliancy generate unmatched thermal resistances in a gap filling interface material.

Tpli™ 200 absorbs shock and relieves stresses, thus minimizing potential damage to components. Tpli™ 200 is electrically insulating, stable from -45°C to 200°C, and meets UL 94 HB rating.

FEATURES AND BENEFITS

- Thermal performance leader
- 6 W/mK thermal conductivity
- Soft and compliant
- Available in thicknesses from
 0.010" 0.200" (0.25mm 5.0mm)

APPLICATIONS

- Notebook computers
- Handheld portable electronics
- Micro heat pipe thermal solutions
- Micro processors, memory chips, and graphic processors
- Automotive engine control modules
- Wireless communication hardware

STANDARD SHEET SIZES

8'' x 8'' (203mm x 203 mm) & 16 '' x 16 '' (406mm x 406mm). Tpli TM 200 may be die cut into individual shapes.

PRESSURE SENSITIVE ADHESIVE

Request no adhesive with "AO" suffix. Request adhesive on one side with "A1" suffix. Double sided adhesive is not available

REINFORCEMENT

Fiberglass is required in thicknesses of 0.010" (0.25mm) and 0.015" (0.38mm). Reinforcement is optional in thicknesses 0.020" (0.5mm) and 0.025" (0.63mm). Indicate fiberglass by "FG" suffix. Thicknesses above 0.025" (0.063mm) are not reinforced.

Data for design engineer guidance only. Observed performance varies in application. Engineers are reminded to test the material in application.
