

## Description

Miniaturised single pole thermal-magnetic circuit breakers with trip-free mechanism and toggle actuation (S-type TM CBE to EN 60934). Two designs provide the option of either printed circuit board or threadneck panel mounting. A separate shunt tap terminal and auxiliary contacts are available. Fast acting, medium or long delay characteristics can be specified for both models.

**Suitable for use in distribution rails – see section Power Distribution Systems.**

Complies with CBE standard EN 60934 (IEC 60935).

## Typical applications

Control equipment, communications systems, instrumentation.  
Suitable for mounting on Euro cards.
