## PS2811-1,PS2811-4

## DESCRIPTION

The PS2811-1 and PS2811-4 are optically coupled isolators containing a GaAs light emitting diode and an NPN silicon phototransistor in a plastic SSOP for high density applications.

The package is a Shrink SOP (Small Outline Package) type for high density mounting applications.

## FEATURES

- High current transfer ratio (CTR = 200\% TYP. @ $\mathrm{I}_{\mathrm{F}}=1 \mathrm{~mA}$ )
- High isolation voltage ( $\mathrm{BV}=2500$ Vr.m.s.)
- Small and thin package (4, 16-pin SSOP, Pin pitch 1.27 mm )
- Ordering number of taping product: PS2811-1-F3: $3500 \mathrm{pcs} /$ reel
: PS2811-4-F3: $2500 \mathrm{pcs} /$ reel
- Pb-Free product
- Safety standards
- UL approved: No. E72422
- CSA approved: No. CA 101391 (CA5A, CAN/CSA-C22. 2 60065, 60950)
- DIN EN 60747-5-5 (VDE 0884-5) approved (Option)

## APPLICATIONS

- Programmable logic controllers
- Small power supply
- Hybrid IC
- Modem/FAX

PS2811-4

<R> ORDERING INFORMATION

| Part Number | Order Number | Solder Plating Specification | Packing Style | Safety Standard Approval | Application Part Number |
| :---: | :---: | :---: | :---: | :---: | :---: |
| PS2811-1-F3 | PS2811-1-F3-A | Pb-Free | Embossed Tape 3500 pcs/reel | Standard products (UL, CSA approved) | PS2811-1 |
| PS2811-1-V-F3 | PS2811-1-V-F3-A |  | Embossed Tape 3500 pcs/reel | DIN EN 60747-5-5 <br> (VDE 0884-5) <br> Approved (Option) |  |
| PS2811-4-F3 | PS2811-4-F3-A |  | Embossed Tape 2500 pcs/reel | Standard products (UL, CSA approved) | PS2811-4 |
| PS2811-4-V-F3 | PS2811-4-V-F3-A |  | Embossed Tape 2500 pcs/reel | DIN EN 60747-5-5 <br> (VDE 0884-5) <br> Approved (Option) |  |

Note: 1. For the application of the Safety Standard, following part number should be used.
ABSOLUTE MAXIMUM RATINGS ( $\mathrm{T}_{\mathrm{A}}=\mathbf{2 5}{ }^{\circ} \mathrm{C}$, unless otherwise specified)

| Parameter |  | Symbol | Ratings |  | Unit |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | PS2811-1 | PS2811-4 |  |
| Diode | Forward Current (DC) |  | $\mathrm{I}_{\mathrm{F}}$ | 50 |  | mA/ch |
|  | Reverse Voltage | $V_{R}$ | 6 |  | V |
|  | Power Dissipation Derating | $\Delta \mathrm{P}_{\mathrm{D}} /{ }^{\circ} \mathrm{C}$ | 0.6 | 0.7 | $\mathrm{mW} /{ }^{\circ} \mathrm{C}$ |
|  | Power Dissipation | $\mathrm{P}_{\mathrm{D}}$ | 60 | 70 | $\mathrm{mW} / \mathrm{ch}$ |
|  | Peak Forward Current ${ }^{* 1}$ | $\mathrm{I}_{\text {FP }}$ | 1.0 |  | A/ch |
| Transistor | Collector to Emitter Voltage | $\mathrm{V}_{\text {CEO }}$ | 40 |  | V |
|  | Emitter to Collector Voltage | $\mathrm{V}_{\text {ECO }}$ | 5 |  | V |
|  | Collector Current | $\mathrm{I}_{\mathrm{C}}$ | 40 |  | $\mathrm{mA} / \mathrm{ch}$ |
|  | Power Dissipation Derating | $\Delta \mathrm{P} \mathrm{c}^{\circ} \mathrm{C}$ | 1.2 |  | $\mathrm{mW} /{ }^{\circ} \mathrm{C}$ |
|  | Power Dissipation | $\mathrm{P}_{\mathrm{C}}$ | 120 |  | $\mathrm{mW} / \mathrm{ch}$ |
| Isolation Voltage ${ }^{\text {*2 }}$ |  | BV | 2500 |  | Vr.m.s. |
| Operating Ambient Temperature |  | $\mathrm{T}_{\mathrm{A}}$ | -55 to +100 |  | ${ }^{\circ} \mathrm{C}$ |
| Storage Temperature |  | $\mathrm{T}_{\text {stg }}$ | -55 to +150 |  | ${ }^{\circ} \mathrm{C}$ |

Notes: *1. PW = $100 \mu \mathrm{~s}$, Duty Cycle $=1 \%$
2. $A C$ voltage for 1 minute at $T_{A}=25^{\circ} \mathrm{C}, \mathrm{RH}=60 \%$ between input and output.

Pins 1-2 shorted together, 3-4 shorted together (PS2811-1).
Pins 1-8 shorted together, 9-16 shorted together (PS2811-4).

Remark All dimensions in this figure must be evaluated before use.

## NOTES ON HANDLING

1. Recommended soldering conditions
(1) Infrared reflow soldering

- Peak reflow temperature $260^{\circ} \mathrm{C}$ or below (package surface temperature)
- Time of peak reflow temperature
- Time of temperature higher than $220^{\circ} \mathrm{C}$

10 seconds or less

- Time to preheat temperature from 120 to $180^{\circ} \mathrm{C}$
$120 \pm 30 \mathrm{~s}$
- Number of reflows

Three

- Flux

Rosin flux containing small amount of chlorine (The flux with a maximum chlorine content of $0.2 \mathrm{Wt} \%$ is recommended.)

## Recommended Temperature Profile of Infrared Reflow

(2) Wave soldering

- Temperature
- Time
- Preheating conditions
- Number of times
- Flux
(3) Soldering by Soldering Iron
- Peak Temperature (lead part temperature)
- Time (each pins)
- Flux
$260^{\circ} \mathrm{C}$ or below (molten solder temperature)
10 seconds or less
$120^{\circ} \mathrm{C}$ or below (package surface temperature)
One (Allowed to be dipped in solder including plastic mold portion.)
Rosin flux containing small amount of chlorine (The flux with a maximum chlorine content of $0.2 \mathrm{Wt} \%$ is recommended.)
$350^{\circ} \mathrm{C}$ or below
3 seconds or less
Rosin flux containing small amount of chlorine (The flux with a maximum chlorine content of $0.2 \mathrm{Wt} \%$ is recommended.)
(a) Soldering of leads should be made at the point 1.5 to 2.0 mm from the root of the lead
(4) Cautions
- Fluxes Avoid removing the residual flux with freon-based and chlorine-based cleaning solvent.

2. Cautions regarding noise

Be aware that when voltage is applied suddenly between the photocoupler's input and output or between collectoremitters at startup, the output transistor may enter the on state, even if the voltage is within the absolute maximum ratings.
3. Measurement conditions of current transfer ratios (CTR), which differ according to photocoupler

Check the setting values before use, since the forward current conditions at CTR measurement differ according to product.
When using products other than at the specified forward current, the characteristics curves may differ from the standard curves due to CTR value variations or the like. Therefore, check the characteristics under the actual operating conditions and thoroughly take variations or the like into consideration before use.

## USAGE CAUTIONS

1. Protect against static electricity when handling.
2. Avoid storage at a high temperature and high humidity.

## SPECIFICATION OF VDE MARKS LICENSE DOCUMENT

## Notice

1. Descriptions of circuits, software and other related information in this document are provided only to illustrate the operation of semiconductor products and application examples. You are fully responsible for the incorporation of these circuits, software, and information in the design of your equipment. Renesas Electronics assumes no responsibility for any losses incurred by you or third parties arising from the use of these circuits, software, or information.
2. Renesas Electronics has used reasonable care in preparing the information included in this document, but Renesas Electronics does not warrant that such information is error free. Renesas Electronics assumes no liability whatsoever for any damages incurred by you resulting from errors in or omissions from the information included herein.
3. Renesas Electronics does not assume any liability for infringement of patents, copyrights, or other intellectual property rights of third parties by or arising from the use of Renesas Electronics products or technical information described in this document. No license, express, implied or otherwise, is granted hereby under any patents, copyrights or other intellectual property rights of Renesas Electronics or others.
4. You should not alter, modify, copy, or otherwise misappropriate any Renesas Electronics product, whether in whole or in part. Renesas Electronics assumes no responsibility for any losses incurred by you or third parties arising from such alteration, modification, copy or otherwise misappropriation of Renesas Electronics product.
5. Renesas Electronics products are classified according to the following two quality grades: "Standard" and "High Quality". The recommended applications for each Renesas Electronics product depends on the product's quality grade, as indicated below.
"Standard": Computers; office equipment; communications equipment; test and measurement equipment; audio and visual equipment; home electronic appliances; machine tools; personal electronic equipment; and industrial robots etc.
"High Quality": Transportation equipment (automobiles, trains, ships, etc.); traffic control systems; anti-disaster systems; anti-crime systems; and safety equipment etc. Renesas Electronics products are neither intended nor authorized for use in products or systems that may pose a direct threat to human life or bodily injury (artificial life support devices or systems, surgical implantations etc.), or may cause serious property damages (nuclear reactor control systems, military equipment etc.). You must check the quality grade of each Renesas Electronics product before using it in a particular application. You may not use any Renesas Electronics product for any application for which it is not intended. Renesas Electronics shall not be in any way liable for any damages or losses incurred by you or third parties arising from the use of any Renesas Electronics product for which the product is not intended by Renesas Electronics.
6. You should use the Renesas Electronics products described in this document within the range specified by Renesas Electronics, especially with respect to the maximum rating, operating supply voltag range, movement power voltage range, heat radiation characteristics, installation and other product characteristics. Renesas Electronics shall have no liability for malfunctions or damages arising out of the use of Renesas Electronics products beyond such specified ranges.
7. Although Renesas Electronics endeavors to improve the quality and reliability of its products, semiconductor products have specific characteristics such as the occurrence of failure at a certain rate and malfunctions under certain use conditions. Further, Renesas Electronics products are not subject to radiation resistance design. Please be sure to implement safety measures to guard them against the possibility of physical injury, and injury or damage caused by fire in the event of the failure of a Renesas Electronics product, such as safety design for hardware and software including but not limited to redundancy, fire control and malfunction prevention, appropriate treatment for aging degradation or any other appropriate measures. Because the evaluation of microcomputer software alone is very difficult, please evaluate the safety of the final products or systems manufactured by you.
8. Please contact a Renesas Electronics sales office for details as to environmental matters such as the environmental compatibility of each Renesas Electronics product. Please use Renesas Electronics products in compliance with all applicable laws and regulations that regulate the inclusion or use of controlled substances, including without limitation, the EU RoHS Directive. Renesas Electronics assumes no liability for damages or losses occurring as a result of your noncompliance with applicable laws and regulations.
9. Renesas Electronics products and technology may not be used for or incorporated into any products or systems whose manufacture, use, or sale is prohibited under any applicable domestic or foreign laws or regulations. You should not use Renesas Electronics products or technology described in this document for any purpose relating to military applications or use by the military, including but not limited to the development of weapons of mass destruction. When exporting the Renesas Electronics products or technology described in this document, you should comply with the applicable export control laws and regulations and follow the procedures required by such laws and regulations.
10. It is the responsibility of the buyer or distributor of Renesas Electronics products, who distributes, disposes of, or otherwise places the product with a third party, to notify such third party in advance of the contents and conditions set forth in this document, Renesas Electronics assumes no responsibility for any losses incurred by you or third parties as a result of unauthorized use of Renesas Electronic products
11. This document may not be reproduced or duplicated in any form, in whole or in part, without prior written consent of Renesas Electronics.
12. Please contact a Renesas Electronics sales office if you have any questions regarding the information contained in this document or Renesas Electronics products, or if you have any other inquiries, (Note 1) "Renesas Electronics" as used in this document means Renesas Electronics Corporation and also includes its majority-owned subsidiaries.
(Note 2) "Renesas Electronics product(s)" means any product developed or manufactured by or for Renesas Electronics.
